All students are expected to read over the summer

Option 1:

Choose a grade-appropriate book from the library website

**Grades 9-10**  
**Grades 11-12**

Click on the cover of the books to read a short description to see if the book is right for you. You may also want to check Common Sense Media for additional warnings.

Option 2:

Instead of reading a book, choose to keep up with the news by logging into NewsELA each week and reading an article.

For each article, you must write a short response to a prompt provided. Students should have read and responded to at least 8 articles in the form of the summer reading response journal before returning to school.

Grading

This will count as 1 Habits of Mind Grade for English Class.

Students are expected to be able discuss what they read and complete an assignment determined by grade-level teams.

Extra Credit is available!
