

ThinkCentral Student Home

Students must be provided with their user names and passwords to log in to *ThinkCentral*.

The student login process is very similar to the teacher login process; however, the student's view of *ThinkCentral* is very different from the teacher view. After logging in, students see the *ThinkCentral* home page.

Students click the name of the page they want to view:

- 1 Things to Do** The **Things to Do** page lists all of the student's tests and assignments that the teacher has assigned. Students can open assignments, indicate that assignments are completed, as well as find and review old assignments.
- 2 My Library** The **My Library** page displays all the online classroom resources, such as books, movies, sound files, and worksheets that are available to the student and allows a student to open these resources.
- 3 My Scores** The **My Scores** page lists the scores that the student received on completed tests and assignments. Teacher comments are available on this page. Students can open old tests to review each question.

Things to Do

The screenshot shows the 'Things to Do' page in the ThinkCentral interface. At the top left is the 'THINK central' logo with a '6' in a yellow circle. At the top right, it says 'Welcome James Fox Not You?' and 'Help | Log Out' next to the Houghton Mifflin Harcourt logo. On the left is a vertical navigation menu with 'Things to Do', 'My Scores', and 'My Library' options, with a '5' in a yellow circle pointing to it. The main content area is titled 'Things to Do' and includes instructions: 'Click the "Done" button to let your teacher know you've completed your assignment.' and 'Today is Wednesday, January 11, 2017'. A '1' in a yellow circle points to a 'Show:' dropdown menu set to 'All Assignments'. Below is a table with columns 'Assignment', 'Teacher', 'Subject', and 'Due Date'. The first row is 'Math lesson' with 'Shea' as the teacher and 'Mathematics' as the subject, due 'Jan. 12, 2017', with a '2' in a yellow circle pointing to the assignment name and a '3' in a yellow circle pointing to a 'Done' button. The second row is 'Review' with 'Shea' as the teacher and 'Reading' as the subject, due 'Jan. 13, 2017', with a '4' in a yellow circle pointing to a 'Done' button. At the bottom right of the table is an 'Old Assignments' button with a '4' in a yellow circle pointing to it.

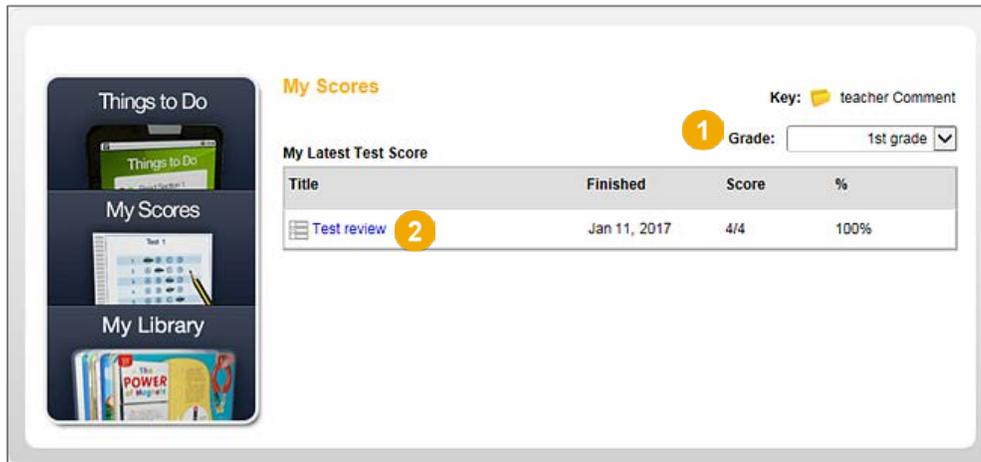

The **Things to Do** page provides students with a list of their tests and assignments. The next assignment due appears at the top of the list.

When a student completes an online assessment, *ThinkCentral* marks the test as complete automatically and moves it off the student's **Things to Do** list.

- 1 Students can filter the list using the **Show** list.
- 2 Students click the assignment name to open the **Assignments Details** page; from this page, students can open the assignment.
- 3 To indicate that a non-assessment assignment is completed, the student clicks **Done**.
- 4 When a student clicks **Old Assignments**, a new page appears listing completed and past due assignments.
- 5 On the side menu, students click the name of the page they want to view: **Things to Do**, **My Library**, or **My Scores**.
- 6 Click the *ThinkCentral* logo in the upper left corner to return to the home page.

My Scores

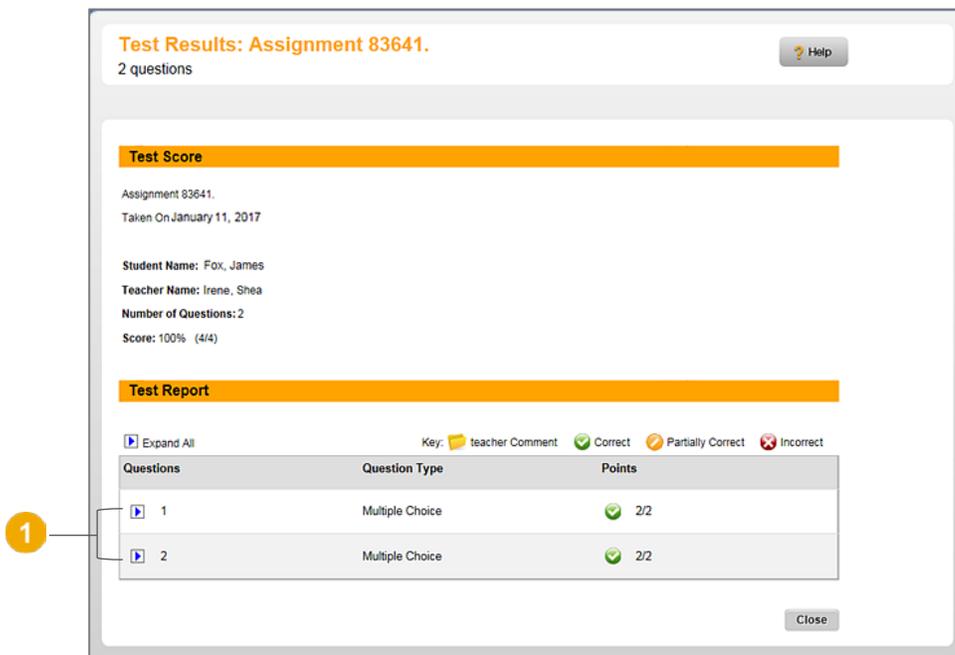

The **My Scores** page lists the student's completed tests or activities and the associated scores.

- 1 If the student has scored assignments from more than one grade level, then the student can select a grade level in the list to sort the scores by grade.
- 2 Students can click a test or assignment title to open the **Results** page.

Results Page

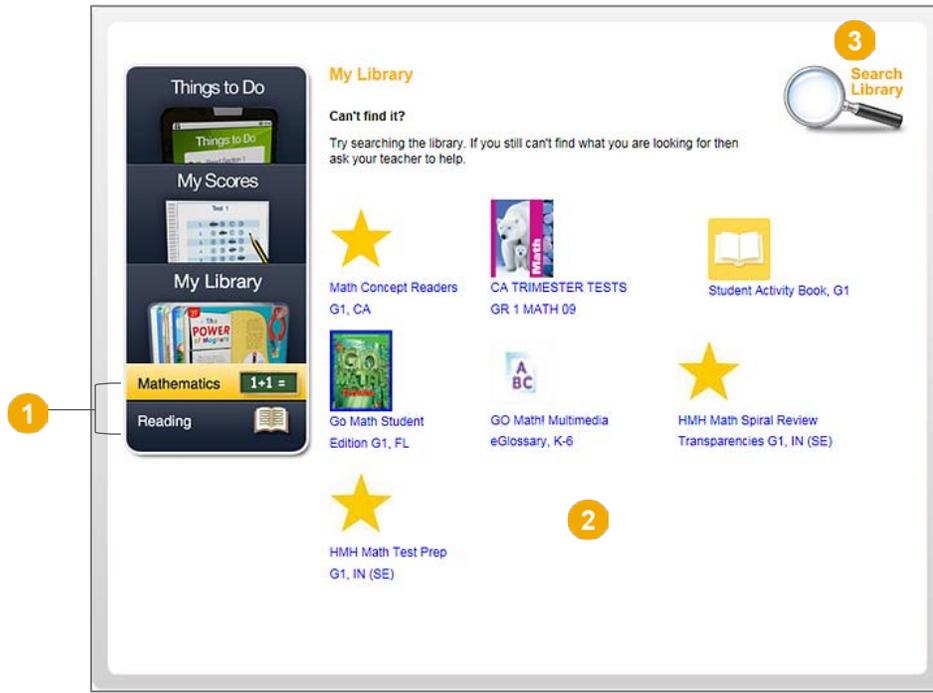

The **Results** page displays the name of the test or assignment, the date it was completed, the question type(s), and the points received.

- 1 If the teacher provides permission, students can see the test questions and answers by clicking the **Expand** button.

My Library

The **My Library** page displays the student's available *ThinkCentral* resources, which are displayed by subject. The resources appear as labelled icons.

- 1 Students can view the resources for a subject by clicking the subject type.
- 2 Students can open a resource by clicking the resource icon.
- 3 Students can search for resources by clicking the **Search Library** icon. The **Search Library** page appears.

Note: Teachers can control the resources available to students using the [Add Class](#) and [Edit Class](#) options.

Search Library

Students can search for resources by subject or by key words. The search results are listed on the page and can be opened directly from the list.
