Career exploration activities were administered at our feeder middle schools. The lessons help identify skills, interests, and abilities that may guide students to future careers. Please indicate current career interests below. Career interests and academic plans are likely to change over time. Students will be guided through classroom lessons each year of high school to review and revise their career interests using a program called Naviance. The program is web-based so students may access the program as often as they like to update their activities and plan for future careers/education. Parents will also have access to view student progress. *We look forward to working with you in person in September!*

Subject Selection Request Directions:

Please complete the section below after reviewing the course descriptions in the OHS Course Catalog (found at olympia.osd.wednet.edu > Counseling > Course Catalog and Application). Choose one each of: English, Science, Math, and Health & Fitness. Also choose four electives (Fine Arts, CTE, World Language, or other). On the bottom right-hand corner of this page enter your four elective course requests in order of preference. We will do our best to schedule your top two course choices. If you see other courses in the Course Catalog that you would like to take, please contact your counselor.
