Sea Lab Dates Extended

Sea Lab application, registration, testing, and interview dates have been revised. Registration and scholarship due dates have been extended and are now due on April 24. Interviews have been postponed to April 27, 28, 30 and May 2. The placement exam is rescheduled for Friday, May 1.

For questions regarding Sea Lab contact Simone Bourgeois, Sea Lab Facilitator: 508-991-4362, from 9:00 a.m. to 2:00 p.m. on regular business days. Please call for an interview.

Please monitor the Sea Lab homepage for updates on schedules:

Sea Lab is a NBPS' award-winning marine science summer program, which has expanded to the academic year program to provide all fifth grade students with an in-depth introduction to marine and aquatic sciences, including principles of oceanography, limnology, meteorology, physics, chemistry, geology, and biology as related to the marine and aquatic environments. Practical outdoor skills, such as swimming, sailing, and snorkeling are also an integral part of the summer Sea Lab experience.
