

SACS Parent Guide: Managing the Calendar

Parents observing multiple students may benefit from the following information

1. Only 10 courses may be visible at a given time. Visibility may be controlled by clicking the box next to the course title.

2. It is recommended that courses are color-coded according to each student-- *i.e. Jonny = Green, Judy = Red, etc.*

To do this, click the three dots next to each course and select the desired color. **NOTE:** *This may only be changed in a web-browser.*
