

2020 - 2021 List of Instructional Technology - Ed Law 2D Compliance **(AKA the Green/Yellow Light Document - Version 3.0)**

This resource document is designed to help districts served by WSWHE BOCES determine which tools are NYS Ed Law 2D/Part 121 compliant for the 2020-21 school year and inform their instructional and program decision-making.

Updated on: November 3, 2020

The **Green Light** list includes those companies that have signed Agreements for Data Sharing & Confidentiality through Contract Procurement and/or Coser Services with Erie 1 BOCES for the NYS Instructional Technology Contract Consortium (NYSITCC), NYSLSA School Contracts for Online Resources in Education (SCORE) or WSWHE BOCES for the 2020-2021 school year.

- All technology products are subject to district approval, including “free products” with terms of service/click wrap agreements, not just paid subscription services.
- District Data Protection Officers must make the final determination if these BOCES agreements extend compliance to the school district.

Please note: Not all vendor products/services may be included in the negotiated master contract agreements.

The **Yellow Light** list includes companies that are not currently 2D compliant. This list of products listed are in process but vendors have not yet signed a Data Sharing & Confidentiality Agreement with WSWHE BOCES.

- Contact your principal and/or district’s Data Protection Officer (DPO) in order to:
 - Request & obtain approval for use of the software, web service and/or applications, and
 - Develop a compliance timeline, and
 - Determine the necessary required actions such as protection of student PII, and parental consent for use of technology products.
 - Vendors in this **Yellow Light** list may or may not have well-articulated privacy policies and FERPA assurances in place. Please review carefully.
 - Privacy Policies for each program are accessible through the vendor link
 - [Common Sense Media](#), [iKeepSafe](#), and [Student Privacy Pledge](#) also provide privacy ratings for many of these programs and may be useful to inform local instructional decisions.
 - Upon request from member districts of the Data Privacy & Security, Learning Technology, or School Library services, WSWHE BOCES will work with companies on the **Yellow Light** list to secure the required Data Sharing & Confidentiality Agreements on behalf of its districts.
-

Use of both **Green Light** and/or **Yellow Light** products prior to completion of signed contractual or supplemental agreements are strictly local decisions determined by the school district upon recommendation of the district’s DPO and require administrative approval in accordance with district policies.

- Please follow the instructional technology request approval process for your school district or BOCES.
- Questions or clarifications should be directed to your school district’s Data Protection Officer (DPO).

Compliant with Ed. Law 2D in 2020-21 when procured through the BOCES that holds the contract and/or provides the procurement service.
